Summary —

Frontend Web Developer with hands-on experience building responsive and user-friendly interfaces using React.js, Next.js, JavaScript, and Tailwind CSS. Focused on creating clean UI, smooth user experiences, and scalable components.

Experience

Vidyaone IT Solution Certificate **Nov 2025 – May 2026**

Frontend Intern (Paid Internship)

- Developed responsive, reusable UI components using React.js, HTML, CSS, and Tailwind CSS.
- Integrated REST APIs to display dynamic data, fixed UI bugs, and delivered assigned tasks within deadlines.

Skills

Framework - React.js, Next.js, Node.js, FastAPI, Tailwind CSS, Bootstrap, Express
Languages - Python, JavaScript, TypeScript, HTML, CSS
Database - MongoDB, SQL
Libraries - Pandas, NumPy, Matplotlib
Cloud - AWS, EC2, S3, IAM, Lambda

Projects

School and College Website Templates (Internship Project) Live Demo

- Developed and delivered **10+ responsive school and college website templates** using React.js, HTML, CSS, and Tailwind CSS.
- Built reusable React.js components to maintain consistent UI and reduce repetitive frontend development.
- Integrated REST APIs to enable dynamic data rendering and improve website functionality.
- Identified and resolved frontend UI bugs while delivering assigned tasks within project deadlines.

Netflix-GPT (AI-Powered Netflix Clone) Live Demo — GitHub

- Developed an AI-powered movie recommendation platform integrating OpenAI's GPT API for intelligent movie discovery.
- Implemented user authentication and application routing using Firebase, React Router, and Redux Toolkit.
- Built a responsive Netflix-inspired interface using React.js, Tailwind CSS, and Vite.
- Deployed a full-stack application combining AI-powered search with movie browsing functionality.

DataLens (Data Analysis Web App) Live Demo — GitHub

- Developed a data analysis platform supporting CSV and Excel uploads for automated dataset analysis.
- Implemented data profiling, data-quality warnings, product ranking, and chart-ready insights to simplify data analysis.
- Built a FastAPI and Pandas backend with a Next.js frontend for data processing and visualization.
- Applied ABC analysis and Pareto-based ranking to identify high-performing and low-priority products.

PixelForge (Client-Side Image Converter) Live Demo — GitHub

- Developed a privacy-focused, browser-based image conversion tool with client-side processing.
- Enabled conversion across 5 formats: JPG, PNG, WebP, PDF, and HEIC, with image resizing and target file-size controls.
- Implemented Canvas API and Web Workers for browser-side image processing without requiring server uploads.
- Built the application using Next.js, React, TypeScript, and Tailwind CSS, with ZIP downloads for converted files.

Education

Maharshi Dayanand University

Bachelor of Computer Applications (BCA) *(2022 – 2025) – 62.07%*

12th Board (CBSE) **2019**

Kendriya Vidyalaya Andrews Ganj

10th Board (CBSE) **2017**

Kendriya Vidyalaya Andrews Ganj

Certifications

- O Level Computer Programming Course (Python) Certificate
- Coursera - IT Security: Defense Against the Digital Dark Arts Certificate
- Coursera - Technical Support Fundamentals Certificate

Hobbies

- Football
- Reading Novels
- Swimming
- Passionate about exploring and learning new technologies
